

DEMA MA CONNECTION - Model 68.10

The DEMA Massachusetts hose connection kit is required for all chemical dispenser hose connection installations within Massachusetts.

The kit meets the requirements of the Massachusetts Board of State Examiners of Plumbers and Gas Fitters for a water hose connection when permanently attached by the manufacturer to any DEMA chemical dispenser equipped with an ASSE 1055B listed backflow preventer.

The DEMA MA connection kit consists of a dual check back flow preventer, a 6' water supply hose and a pressure bleeder device with a male quick connect. These items are all permanently attached together and to the chemical dispenser which includes the ASSE 1055B approved action gap back flow preventer.

The ruling is outlined on The MA.gov Official Website of the office of Consumer Affairs & Business Regulation and can be reviewed at:
