# HOUSEKEEPING SOLUTIONS: SINGLE OR DUAL DISPENSER

## Dilution at Hand Extreme

The Dilution at Hand (DAH) Extreme has a sleek design and enhanced color scheme that provides a modern appearance in any housekeeping environment plus multiple features to enhance productivity and dispensing flexibility. Its modular design allows the dispensers to be used with or without locking cabinets and with or without selector valves for the ultimate flexibility from 1 to 8 products or multiple dilutions for 1 plus product.

### Features and Benefits

- ◆ Remote fill option for easy filling of buckets and scrubbers when location flexibility is required
- ◆ One-hand bottle fill allows the operator more flexibility when filling spray bottles
- ◆ Action Gap and Air Gap backflow options to meet local plumbing agency requirements
- ◆ Optional multi-product / dilution selector valves are available in single or dual for up to 8 products or dilutions
- ◆ Optional 1 gallon (5L) or 1/2 gallon (2L) locking enclosures for various bottles sizes
  - Modular design allows any number of cabinets to be coupled together
  - Built-in hinges improve cabinet durability
  - Molded drip tray snaps into locking enclosure

 **SafeLink™**  
Adaptive Closed Loop Technology by DEMA

Available for use with  
Dilution at Hand Extreme

## Single Station or Dual Station

Single Station with 1 Fill Port features 1 bottle or bucket fill tube and dilutes 1 product with a dedicated proportioner or up to 4 products or dilutions with a selector valve dial. Dual Station with 2 bottle fill, 2 bucket fill or 1 of each fill. The dual system can be configured with dedicated proportioners for 2 products, 1 selector, and 1 dedicated for up to 5 products (or dilutions) or 2 selectors for up to 8 products or dilutions.

### Available in multiple configurations

- ◆ Low, Medium, and High Flow
- ◆ Action Gap or Air Gap
- ◆ Selector or No Selector
- ◆ Dispenser only, with cabinets, or wire racks
